

Partnerships Table:

* = Identified as *high needs*, based on the following criteria:

- English Learner, low-income (measured by free/reduced-price meals), foster youth
- High-Needs Schools: >55% students identified as high-needs
- High-Needs Districts: >55% students identified as high-needs

Multiple Subject candidates are placed and employed across the Central Valley. We try to cluster at least 4 teacher candidates at a school site within the school districts that agree to support the greatest number of teacher candidates, however, that is not always feasible.
