

FRESNO STATE SCHOOL NURSE SERVICES CREDENTIAL PROGRAM EVALUATION COMMENTS 2016-2020

Thank you in advance for a wonderful year of education. I truly feel that I have gained a tremendous amount of knowledge that will serve to enhance my practice as a school nurse. It's been worth every minute. With sincere gratitude and respect, MM

I enjoyed the learning opportunities in this program and appreciated the pleasant and informative interactions with you via Blackboard and email throughout each semester. Thank you for a well-planned and organized program.

I want to thank you so much for your instruction and guidance this past year. It is a very rigorous program, but has been extremely beneficial. Thank you! Alisa

Thank you for your wonderful school nursing credential classes. I am grateful that I took your classes. I have more confidence in school nursing.

Thank you for the guidance as the moderator/instructor for the classes and facilitating my growth as a school nurse.

I thank you Patricia for your undying patience and guidance. You and Candy are by far my favorite teachers in my life long career of nursing. Restfully, Sheryl

Thank you so much for your guidance through the entirety of the credential process.-Stephen

Instructors were easy to get hold of and I learned a lot from fellow classmates. There was a wide variety of topics and resources.

The course gave me more confidence, knowledge, and allowed me to grow professionally to handle future situations.

The course was perfect and I loved it! I learned a lot from the research questions and we got to pick what was new to us. I saved all of the presentations.

I loved learning from other school nurses and it was great having opportunities to share information. Assignments complimented our roles as school nurses.

I learned so much with the Power points and resources. I loved the class and would highly recommend it.

Instructors and fellow students were amazing. I felt I received an excellent education.

As this is my 7th year as a SN I did not think I had much to learn..I was pleasantly surprised!

Thoughts about Preceptors....

My preceptor was so professional, yet warm, patient, flexible and knowledgeable!

Preceptor was very educated and experienced school nurse. She was very supportive as she juggled extra work duties.

A wonderful experience, a valuable resource, always available to answer questions using critical thinking skills.

Amazing preceptor who was very supportive of my journey this semester and routinely served as a sounding board for my experience and offered solutions to my questions about how to be a better school nurse. Highly recommended.

An excellent preceptor in guiding me to reach and achieve my goals.

COURSE EVALUATION PRECEPTOR COMMENTS 2016-2020

None, the faculty at Fresno State have been accessible and provided clear instruction to students and preceptors. Overall it has been a positive experience.

Wonderful experience! Course content is very pertinent and fostered an encompassing experience of what "real" school nursing entails.

Excellent program! The program provided a breadth of opportunities and the student gained a lot of experience

The suggested activities in the syllabus appear comprehensive. I would not add anything.

The program experiences are well rounded and applicable.

More time with preceptor!

My preceptees this school year were focused, goal driven and worked to do the best job possible for students and families. Their professionalism made my job easier than expected.

Continue to provide what is best for school nursing!!!
