

**COMPETENCY TASK #2**  
**Facilitating Problem Solving & Decision Making Through**  
**Collaborative Professional Learning**  
[CAPE Standards 1C, 2A, 2C, 2D, 3C, 5B, 5C](#)

**Protocol**

Effective educational leaders strive for educational opportunities that are driven by equity and culturally responsive practices to promote each student’s academic success and well-being. McLaughlin & Talbert posit that building a shared vision and language about practice is essential to teachers professional learning (2006).

Equity-driven educational leaders promote a collaborative professional learning culture in schools. One major leadership skill that supports this culture is facilitating professional learning by building and supporting communities of practice. Related leadership skills include analyzing the progress of professional learning and reflecting on areas for improvement.

Competency Task #2 focuses on facilitating collaborative professional learning within a community of practice for the purpose of improving teaching and student learning. Within the CalAPA Leadership Cycle 2 performance assessment, candidates will engage in a cycle of *investigate, plan, act, and reflect*. Candidates will identify and work with a small group of educators at a school cite to identify a problem of practice that is grounded in school data on student achievement or well-being.
