SCHOOL PSYCHOLOGY PROGRAM OVERVIEW

Mission

The School Psychology Program at California State University, Fresno is dedicated to preparing highly competent professional psychologists according to the scientist practitioner model. Graduates, as a result of their broad-based training, are prepared to make significant contributions to this challenging field through professional practice.

The School Psychology Program is founded in the principles summarized above, taken from the Preamble of the APA Ethical Principles of Psychologists, and strives to prepare school psychologists who will model these ideals.

The Educational Specialist (Ed.S) program provides future school psychologists (students) with a solid professional and academic foundation reflecting depth and diversity in both psychology and education. All students develop an understanding, respect for, and responsiveness to culture and individual differences. The program emphasizes the importance of delivering school psychological services from a consultation framework to prevent and remediate learning and adjustment problems experienced by children and adolescents. Students are taught to link assessment methodologies to the development of empirically-based interventions. They learn to view problems from a systems/ecological perspective focusing on the child, the family, the school, and the community, and to use a scientific problem-solving approach in their work. Both the theoretical and the empirical bases of professional practice are emphasized, in a diverse range of settings including inner city, suburban, and rural. Furthermore, the program provides future school psychologists with a solid professional and academic foundation reflecting depth and diversity in both psychology and education. The Program fosters special sensitivity to cultural diversity of all people and respect for the uniqueness and human dignity of each person. Self-awareness, regard for others, and respect for cultural and individual differences are actively cultivated and expected of all students.

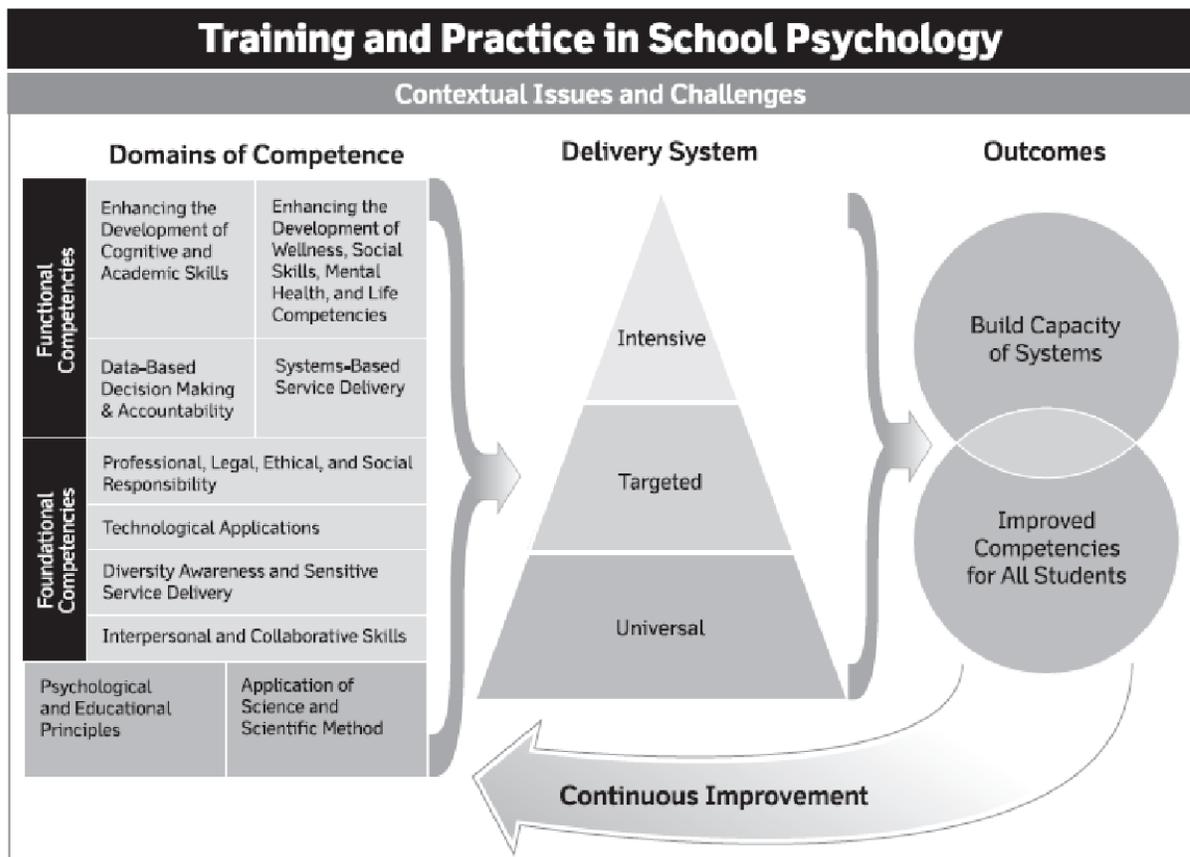

Professional preparation also concentrates on specific skills development in a number of service function areas, but the major emphasis of the Program is the preparation of the school psychologist as a highly competent problem solver. Thus, rather than being trained to respond to specific problems in specific ways, students are prepared to draw upon a personal foundation in psychology and education to effectively develop, implement, and evaluate strategies for preventing or resolving problems as they occur. Additionally, students learn to collaborate with other helping professionals and with parents in serving the mental health and educational needs of all children and youth.

SCHOOL PSYCHOLOGY PROGRAM OBJECTIVES

The California State University, Fresno School Psychology Program has adopted a scientist–practitioner model with an emphasis on problem-solving. At the completion to the program students are expected to be able to:

- Operate within a scientist-practitioner framework by using the scientific method and research to guide practice and demonstrate accountability.
- Demonstrate respect for and sensitivity to cultural and individual differences.
- Deliver school psychological services from a consultation framework with an emphasis on problem-solving to prevent and remediate learning and adjustment problems experienced by children and youth.
- Link assessment methodologies to the development, implementation, and evaluation of research-based interventions.
- View problems from a systems/ecological perspective focusing on the child, family, school, and community.
- Demonstrate a theoretical and empirical basis for professional practice.
- Engage in evaluation of individual practice and school-based and/or community based programs.

In 2020 NASP adopted the new standards and the Practice Model.

PRACTICA

The practicum is designed to:

1. provide the student with experiences that facilitate the integration of coursework and theory with the practical aspects of applied practice; and
2. provide a framework for the gradual shaping of the student's skills, allowing the student to evolve to an independently functioning professional.

Along with courses in basic concepts and theory and specialized techniques, students participate in practicum experiences that provide supervised applications of their skills. All students must complete supervised practice of 600-clock hours of practica prior to internship.

The practicum process involves four stages:

1. observation
2. assisting the field-based credentialed school psychologist
3. performing with assistance from the field-based credentialed school psychologist
4. working independently

The Program Coordinator places students on practicum each semester of the first two years in the program; sites will rotate for each of the four semesters. Students receive field supervision from their assigned local school psychologist. Practicum supervisors are credentialed school psychologists with a minimum of 3 years of experience. University supervision is provided by the California State University, Fresno, School Psychology Program Faculty through practicum class, Psychology 287.

School Psychology Program Courses

The following courses have practicum requirements:

Psychology 278:	Intervention and Prevention in School Psychology
Psychology 279:	Consultation and Supervision in School Psychology
Psychology 282:	Cognitive and Behavior Therapy
Psychology 285:	Assessment of Learning and Developmental Problems
Psychology 286:	Instructional Consultation
Psychology 287:	Practicum in School Psychology
Psychology 274S:	Multicultural Psychology – Service Learning Practicum

Students are assigned to practicum placements for two half days per week during the first year and two days per week during the second year. A day is considered at least 8 hours per week in the schools for a minimum of 100 hours each semester during the first year and 180 hours per semester during the second year. Total practicum hours for the program = minimum of 560. First year students will have two practicum sites in the fall; one will be with a school psychologist at a comprehensive site and the other at a service-learning site. In the spring the practicum will be with a different school psychologist. Second year students will typically be placed with one school psychologist for the two days of practicum per week. Practicum logs will be maintained each week and summarized each semester.

Practicum Placement

The faculty in the School Psychology Program assign students to their practicum sites. Students are given the opportunity to request districts for practicum. Field-based credentialed school psychologists serve as site supervisors. Students are assigned to specific site supervisors based on their year in the program, the needs and interests of the student, and the appropriateness of the field-based site. Field supervisors are selected who have knowledge and skills appropriate for the semester of practicum. The Central Valley of California is a large area, and car travel is a necessity. Appropriate dress is expected for practicum; please discuss with field supervisors. In general no cleavage, short skirts, no visible tattoos, no hair dyed an unnatural color, and no visible body piercing except earrings for females. Jeans are not acceptable unless recommended by your field supervisor.

Evaluation of Practicum and Program Progress

Student performance of practicum is evaluated twice each year using multiple products.

1. All students must maintain a daily log of their practicum activities. The Practicum Log form is on page 14 of this document. Time, activities, and student contacts are recorded.
2. Students are evaluated by the Program Faculty within the context of the competencies specified on the School Psychology Faculty Evaluation of Students. See page 36.
3. Students are evaluated by the field-based credentialed school psychologist each semester using the School Psychology Practicum Student Evaluation (see page 16). The student is responsible for insuring that the evaluation form is returned to the Coordinator of the School Psychology Program prior to finals week of each semester.
4. Students complete the Student Evaluation of Field-Based Supervisor form located on page 20 to assure match between program expectations and field experiences.

The Program faculty meet with each student at the end of each semester to review the School Psychology Practicum Student Evaluation and experiences. The Advisee Record form is completed with the faculty and student at that time. Specific areas of strength and areas for improvement are discussed with the student.

PRACTICUM EXPECTATIONS

Practicum students: these are typical assignments. It is your responsibility to get a list of current assignments and due dates to your field supervisor at the beginning of the semester.

Fall – Year 1

The first semester of practicum is designed to allow students to learn about the role of the school psychologist as a team member, school systems, and special education. Besides supporting the class assignments listed below, field supervisors are encouraged to expose their practicum student to as many educational experiences as feasible. Students will benefit from spending time in classrooms, especially special education classes.

Psych 287-1 (Practicum supervision)

MINI-INTERVIEWS: During practicum each student, with the help of their field supervisor, will arrange the following experiences: attend an Individual Education Plan meeting; spend time with and shadow a speech therapist, a school nurse, etc. – see list below. These may be conducted in any order. Students will complete a one-page bullet-point format list of things they learned from each interview and shadowing experience for class discussion. Each experience list should have at least 5 bullet points about what you have learned.

- *School Psychologist*
- *RSP special education teacher*
- *SDC/SH special education teacher*
- *Speech Pathologist*
- *School Nurse*
- *Assessment*
- *School counselor or school social worker*
- *School Administrator*
- *IEP meeting*
- *Consultation or SST meeting*
- *Bilingual School Psychologist, Teacher or Aide*

OBSERVATIONS: Students will turn in 3 structured observations (see dates on syllabus). Observations are to be conducted at your practicum site. Please write a one page narrative of each observation including the following: (1) referral concerns, (2) student's age or grade, gender, (3) target behavior, (4) type of observation and rationale for type of observation, (5) observation setting (e.g., classroom, playground, large group instruction, one-to-one), (6) numerical/statistical summary of data, (7) anecdotal or real-time observations to supplement quantitative data. The narrative should be a paragraph or two that could be inserted into a psycho-ed or intervention report. Attach original data collection sheet.

- Observation #1: ABC observation; turn in recording form and narrative with description of student, target behavior, environment, and hypothesized function of behavior

- Observation #2: Event recording; turn in recording form and narrative with description of student, target behavior, environment, and statistical summary of behavior
- Observation #3: Time sampling; turn in recording form and narrative with description of student, target behavior, type of time recording chosen and rationale, environment, and statistical summary of behavior

Spring – Year 1

The second semester is exciting for students! Besides observing, they are starting to learn to write psychoeducational reports and have their own consultation project. Field supervisors will need to help them find a cooperating teacher and target student for the consultation project. The field supervisor will guide the student as he or she works on their first “pre-psych” reports. We expect these to be evaluations the field supervisor is currently conducting. The practicum student is expected to conduct the file review, collect background information, conduct observations, interviews, and write up that part of the report.

The pre-psych reports and consultation project can be done at either your comprehensive school site or special site. The special site assignment is working with a school psychologist who serves classes for students with autism, emotional disorders, or preschoolers. Practicum students are expected to learn about the role of school psychologists in working with children or adolescents with low-incidence disorders.

Psych 287-1 (Practicum supervision)

At a minimum, a practicum student will complete the following activities on-site during this semester of practicum. Each student’s individualized practicum plan may include activities that are not specified here.

General Site

- You will write two “pre-psych” reports for/with your field supervisor. These are on actual students that your practicum supervisor is evaluating. Your part will be:
 - o Record review: Educational, family, developmental, and health history. Previous interventions or assessment results.
 - o Current information: grades, CELDT/ELPAC, state test, attendance data as appropriate.
 - o Parent and teacher interview
 - o Observations
- Observe the evaluation process: query your field supervisor about why certain measures are chosen, etc.
- If possible, attend the IEP meetings for the students whose reports you worked on. Share information from your observations.

Psych 279 (Consultation)

1. Consultation practice case

- You will need to initiate a consultation case in your school. Informed consent letters to teachers and parents will be provided; signatures are required before beginning

consultation.

- A minimum of 3 consultation sessions are required to meet expectations for this course. Exceptional consultation cases will typically require additional sessions, consultant follow-up, and outcome evaluation.
- Please turn in the following for credit:
 - A written consent from the teacher/consultee AND a consent from the target student's parent(s) or guardian(s).
 - All consultation sessions should be audio recorded with the knowledge and written permission of the consultee and the student's parent or guardian.
 - An audio recording for the two sessions: one PII and one PAI. You are required to audio record your sessions that best demonstrate your attempts to practice your consultation skills and submit them via Blackboard.
- Once you have identified a possible consultation case with your site you will need to set a supervision time with me to discuss the case before beginning. Class sessions are also reserved for case discussion supervision. To keep on schedule, you should have case arrangements established by mid-February.

2. Other assignments. You are required to turn in a brief report (3-5 slides) via Google Slides for the following assignments (see class schedule for due dates).

- One school-culture observation
- One interview with your practicum site supervisor. Examples of interview questions include but are not limited to
- What are your views about school consultation?
 - Did your views of consultation change over time and why?
 - What kinds of consultation do you usually do?
 - What are the obstacles and how do you overcome them?
 - How do you describe your style of consultation?
 - Did your style of consultation change over time and depending on teachers, why and how?
 - What are your thoughts for and experiences of multicultural consultation?
 - What are the obstacles and your strategies?
 - What suggestions do you have for me in terms of conducting consultation?
- One observation of your site supervisor's individual teacher consultation. The consultation observed could be formal or informal but the observed consultation has to be longer than 5 minutes. The foci of the observations include but are not limited to the following:
 - the role of the psychologist,
 - communication style,
 - how does the consultation start and end,
 - what are the useful strategies that the consultant used, etc.

FALL YEAR 2

Year 2 practicum is a steep learning curve for students!! You are now allowed to administer standardized tests on practicum and are expected to complete several comprehensive evaluations with the support of your field supervisor. The first two assessments should be reevaluations, not initials. One of the assessments will serve as a case study for Psych 285 so will be for a student considered for a Specific Learning Disability.

A big challenge in Fall Year 2 is the Functional Behavior Assessment, development of a Behavior Intervention Plan, implementation, and evaluation of the behavior intervention. You will need to be guided to a potential child for this project, with a back-up in mind as sometimes permissions are delayed, students move, or are suspended or expelled. NOTE: This project will cover the entire semester; it is critical that you identify a case as soon as possible. Parent permission is due in mid-September.

Psych 287-2 (Practicum)

Evaluations: Each student will complete and/or assist in three evaluations at your school site. The first two should be reevaluations. Utilize information from a variety of data sources including the classroom teacher; parent/guardian; pupil; and direct observations in multiple settings. The evaluations must include a written report. **For all class reports, identify the pupil by first name, grade, and age only.**

- The following assessments are required in the evaluation:
 - Child Background (e.g., academic history; health history; discipline)
 - Structured Classroom Observation by the practicum student
 - Parent and Teacher input
- The following assessments are recommended in the evaluation when appropriate;
 - General/Cognitive Ability test (e.g., KABC; WISC-IV)
 - Adaptive Behavior Assessment (e.g., ABAS-2; Vineland)
 - Curriculum Based Measurement, Progress Monitoring (e.g., DIBELS)
 - Academic Assessment data (e.g., WIAT-II, or WJ-III)
- Presentation at 2 IEP meetings.

Psych 278 (Intervention and Prevention)

Behavior Intervention Project: The Intervention project for this course consists of **FOUR** separate assignments needing to meet the requirements detailed below. They are the:

- *Functional Behavior Assessment (FBA)*
- *Behavior Intervention Plan (BIP)*
- *NASP Proposal*
- *Final Presentation*

FBA and BIP: Each student will complete an FBA that results in a full written evaluation report. The FBA will require consultation skills and decision-making abilities in which the problem solving process is implemented. Conducting the FBA will require a records review, staff and parent interviews, and direct observations. Data collected through the FBA process will lead to the development of a BIP. Interim reports (e.g., interview forms, data collection sheets, behavioral worksheets, etc.) are required. Prior to implementing the designed intervention, a minimum of three baseline data points are required; these may be collected within the same week, but cannot all be collected on the same day.

Psych 285 (Assessment of Learning and Development)

Case Study/Mock IEP

Each student will complete a case study in coordination with his or her practicum course and practicum supervisor. The case study shall include an evaluation in determining whether or not a student has a Specific Learning Disability (SLD). The evaluation shall use Processing Strengths and Weaknesses (PSW) and/or Response to Intervention (RTI) criteria. The discrepancy model of eligibility may be included in the report but cannot be the sole model used in the determination of SLD. For credit, students will present a Psychological-Educational Evaluation to the class, submit an evaluation report, and submit supportive artifacts of the case study (assessment plan, photocopies of protocols, CBM permanent products, etc.). The assignment will be graded on completion of the requirements listed below and analysis and syntheses of all available information and interpretive recommendations.

Expectation	Points
Case Study Requirements	50 points
Mock IEP (Findings, Recommendations, Defensibility)	50 points

Requirements of the case study evaluation shall include:

PSW	RTI
Assessment Plan (student info blacked out)	Assessment Plan or Parent Permission Form
Referral Information and Supportive Artifacts	Referral Information and Supportive Artifacts
Background Information and Parent/Teacher Input	Background Information and Parent/Teacher Input
Cognitive Assessment	Benchmark Assessment Data
Attention/Executive Functioning Assessment	Minimum of 6 Weeks of CBM Progress Monitoring Data
Auditory Processing Assessment	Narrative of Evidence Based Intervention
Visual Processing Assessment	Graphic Summary with Embedded Trend line
Long-term Memory Assessment	2 Standardized Assessments (Cognitive/Processing)
Academic Achievement Assessment	Academic Achievement Assessment
Psychological Impressions Narrative	Psychological Impressions Narrative

SPRING YEAR 2

By now students are becoming skilled in assessment and report writing. You are asked to conduct a minimum of three assessments this semester. They will also be doing interviews on MTSS in their district. A big project is the academic intervention for Instructional Consultation. Similar to the behavioral intervention in the fall, it is critical that practicum students identify one or more target students early in the semester to allow to implementation and adequate progress monitoring data points.

Finally, you will be conducting a counseling project; either cognitive behavior therapy or solution focused therapy. Again it is important to identify one or more children for this project as soon in the semester as possible.

In spring this cohort is also interviewing for internships! If your practicum supervisor has time to help you with tips and practice interviewing, that would be great!

Psych 287-2 (Practicum)

Assignments

- At-risk youth paper: Write a 2-3-page paper reflecting on how your role as a school psychologist (practicum student) has varied due to the diversity of your practicum sites. Describe your experiences working with foster families, incarcerated youth, homeless youth, students in danger of dropping out of school or being retained? Relate this to the current focus on childhood trauma. Consider assessment, consultation with teachers, parental input and collaboration, community and social services, etc. What strategies and skills do you need to serve all students?
- RTI/MTSS interview: Interview teachers and/or administrators regarding campus implementation of RTI/MTSS. Note the stage of implementation and activities, strategic systematic supports in place/available, challenges they have encountered, advice, and who the leaders of the initiative were.
- IEP reflection paper: Write a 1-page paper describing your participation, observations, and reflections from an IEP in which you were involved. The paper shall be a minimum of one page, maximum two pages double-spaced and is due one week after the IEP meeting.
- Psychological-educational evaluations: Second year students need to complete and/or participate in three evaluations (initial or reevaluation).
 - Structured classroom observations are required for all evaluations.
 - You must include a graph in each assessment report.
 - Parental participation in the assessment must be documented.
 - Reports may be in the format utilized by the district in which you are completing your practicum.
 - You and your field supervisor should sign reports.
 - Report dates are indicated on the syllabus. Late reports will receive zero points unless (1) I have been notified in advance this could not be completed by the due date and (2) I have confirmed there was nothing you could have done to complete the report in time with your field supervisor.
 - Include a reflection on the assessment experience and any changes you would make in a similar situation.

Psych 282 (Cognitive Behavior Therapy)

Develop CBT and counseling skills with children:

- Each student will work with the practicum supervisor to secure a counseling case in order to complete this course. Initiation, communication, and collaboration with the supervisor are vital in this process. For a successful learning experience, the deadline for securing a

counseling case is Feb. 21, about one month after the school starts. The student will utilize either the cognitive behavior therapy or brief solution-focused therapy model.

- Students turn in two recorded audio CBT sessions that they view as best representing their skills. Turn in two audio records only. No transcript is required.
- Case presentation: By the end of the semester, students present their cases. The content of the case presentation includes (but is not limited to): background information, major problems addressed, cognitive techniques you used, progress of the sessions, behavioral intervention used, what to do differently, why terminate if you do, a summary (5 major points of your views) of your development as a therapist in a school setting over the course of the semester.

Psych 286 (Instructional Consultation)

Consultation/Intervention Project: The term project will be a consultation and intervention case study in which the problem solving process is implemented. This will be conducted at your practicum site. Students will design one academic intervention project (e.g., peer tutoring, differential reinforcement, repeated reading, reading instruction, cover-copy-compare or drill). The project must include:

- At least weekly progress monitoring (e.g., CBM, DIBELS, academic accuracy) of an academic skill
- 3 baseline data points (which may, and probably should, be gathered in one week preceding intervention implementation; spring semester is surprisingly short with breaks, conventions, and CST. Archival data may be utilized IF this will be the data gathered during implementation)
- A minimum of 8 weekly intervention data points.
- The intervention should be implemented at least 3 times per week for a minimum of 15 minutes.
- You do not have to directly implement the intervention, and may supervise a consultee.
- Regardless you need to collaboratively design the intervention and implementation integrity must be documented and social validity assessed.
- Interim reports (e.g., a teacher interview and assessment of the educational environment, intervention plan) will be expected. Consider this information (i.e., assessment of the classroom) in designing the intervention.
- The intervention must be based on the empirical literature; two articles directly related to the proposed intervention will be required. The goal must be to improve academic competence in a specific skill.
- The project will be documented as a manuscript.

Remediation Plans Related to Practica Experience

Should there be areas of weakness or concern in a Practicum student's skills, knowledge, social skills, dress, punctuality, and/or other competency areas, the student and the Program Faculty are responsible for developing a Remediation Plan (see page 37). The Plan may include more on-campus supervised activity, coursework, or additional practicum hours.

SCHOOL PSYCHOLOGY PRACTICUM STUDENT EVALUATION – YR 1
CALIFORNIA STATE UNIVERSITY, FRESNO
Field Supervisor Form

Practicum student: _____ Date: _____

Field Supervisor: _____

Placement: _____

Circle the number corresponding to the observed behaviors according to the following scale:

3. Accomplished

Exhibits evidence of knowledge and competence that exceed expectations for a beginning practicum student.

2. Emerging

Beginning to function more independently.

1. Not Met

Competence below the level expected of a practicum student¹

NA. Not applicable or observed

1.	Practicum student works with teacher as consultee to identify target problem. (NASP Standard 3, 4.1, 4.2)	1 2 3 NA
2.	Practicum student works with parent/family to support individual student goals. (NASP Standard 3, 4.1, 4.2, 6)	1 2 3 NA
3.	Practicum student considers culture when developing interventions. (NASP Standard 7)	1 2 3 NA
4.	Practicum student works with consultee to analyze baseline data, develop intervention plan, and helps obtain necessary materials. (NASP Standard 3, 4.1, 4.2)	1 2 3 NA
5.	Practicum student displays skills in using technology to monitor progress and graph results. (NASP Standard, 8.1)	1 2 3 NA
6.	Practicum student utilizes data for intervention evaluation. (NASP Standard 2, 4.1, 4.2, 8.1)	1 2 3 NA
7.	Practicum student displays knowledge of biological, cultural, developmental, and social influences on behavior and mental health. (NASP Standard 4.2, 7)	1 2 3 NA
8.	Practicum student displays knowledge of empirically based behavioral interventions and techniques. (NASP Standard 4.2, 5.2)	1 2 3 NA
9.	Practicum student effectively interviews teachers, parents, and students. (NASP Standard 2, 3, 6)	1 2 3 NA
10.	Practicum student displays knowledge of biological, cultural, developmental, and social influences on development and learning. (NASP 4.1, 7)	1 2 3 NA
11.	Practicum student displays knowledge of learning principles (e.g., reinforcement, repetition) and how these can be used to support students. (NASP 4.1, 4.2)	1 2 3 NA
12.	Practicum student displays skills in observations of students. (NASP Standard 2)	1 2 3 NA

13.	Practicum student participates in system-wide academic data collection (e.g., DIBELS). (NASP Standard 2, 5.1)	1	2	3	NA
14.	Practicum student establishes rapport with students. (NASP Standard 3, 5.2)	1	2	3	NA
15.	Practicum student displays skills in conducting groups. (NASP Standard 4.2, 5.2)	1	2	3	NA
16.	Practicum student is sensitive to cultural and linguistic diversity of students and families. (NASP Standard 7)	1	2	3	NA
17.	Practicum student displays knowledge of legal procedures. (NASP Standard 8.2)	1	2	3	
18.	Practicum student report sections are thorough and well written. (NASP Standard 8.2)	1	2	3	NA
19.	Practicum student demonstrates understanding of school culture and systems. (NASP Standard 5.1)	1	2	3	
20.	Practicum student contributes to staffing conferences and IEP meetings. (NASP Standard 3, 8.2)	1	2	3	NA
21.	Practicum student demonstrates confidentiality and ethical behavior in counseling. (NASP Standard 8.2)	1	2	3	NA
22.	Practicum student engages in appropriate actions when confronted with an ethical dilemma. (NASP Standard 8.2)	1	2	3	
<i>4 = Exemplary; 3 = Average; 2 = Needs Improvement; 1 = Unacceptable</i>					
a.	Interactions with staff in terms of pleasantness, cooperation, courtesy.	1	2	3	4
b.	Assertive and tactful in stating concerns and asking questions.	1	2	3	4
c.	Initiative and enthusiasm for the field.	1	2	3	4

7.	Practicum student displays knowledge of biological, cultural, developmental, and social influences on behavior and mental health. (NASP Standard 4.2, 7)	1	2	3	NA
8.	Practicum student displays knowledge of empirically based behavioral interventions and techniques. (NASP Standard 4.2)	1	2	3	NA
9.	Practicum student displays knowledge in systems level consultation and intervention, e.g., classroom, grade level, and school-level. (NASP Standard 3, 5.1, 5.2)	1	2	3	NA
10.	Practicum student effectively interviews teachers, parents, and students. (NASP Standard 2, 3, 6)	1	2	3	NA
11.	Practicum student displays knowledge of biological, cultural, developmental, and social influences on development and learning. (NASP 4.1, 7)	1	2	3	NA
12.	Practicum student displays knowledge of learning principles (e.g., reinforcement, repetition) and how these can be used to support students. (NASP 4.1, 4.2)	1	2	3	NA
13.	Practicum student displays skills in systematic observations of students. (NASP Standard 2)	1	2	3	NA

14.	Practicum student displays knowledge in selecting appropriate assessment measures for the purpose of identifying educational strengths and needs, and special education eligibility. (NASP Standard 2, 8.2)	1	2	3	NA
15.	Practicum student conducts valid and reliable assessments for the purpose of identifying student's eligibility for special education services and/or intervention. (NASP Standard 2, 8.2)	1	2	3	NA
16.	Practicum student displays knowledge in synthesizing assessment information for intervention development. (NASP Standard 4.1, 4.2)	1	2	3	NA
17.	Practicum student participates in system-wide data collection (e.g., DIBELS). (NASP Standard 5.1)	1	2	3	NA
18.	Practicum student establishes rapport with students. (NASP Standard 3, 4.2, 5.2)	1	2	3	NA
19.	Practicum student displays effective skills in individual counseling. (NASP Standard 5.2)	1	2	3	NA
20.	Practicum student integrates behavioral support and mental health services with academic and learning goals for students. (NASP Standard 5.2, 6)	1	2	3	NA
21.	Practicum student facilitates the design and delivery of interventions to help students to develop effective social and life skills. (NASP Standard 4.2, 5.2)	1	2	3	NA
22.	Practicum student displays skills in conducting groups. (NASP Standard 4.2, 5.2)	1	2	3	NA
23.	Practicum student displays knowledge and/or skills in counseling culturally and linguistically diverse students and families. (NASP Standard 6, 7)	1	2	3	NA
24.	Practicum student displays knowledge of legal procedures. (NASP Standard 8.2)	1	2	3	
25.	Practicum student report sections are thorough and well written. (NASP Standard 8.2)	1	2	3	
26.	Practicum student demonstrates understanding of school culture and systems. (NASP Standard 5.1)	1	2	3	
27.	Practicum student contributes to staffing conferences and IEP meetings. (NASP Standard 3, 8.2)	1	2	3	
28.	Practicum student demonstrates confidentiality and ethical behavior in counseling. (NASP Standard 8.2)	1	2	3	NA
29.	Practicum student engages in appropriate actions when confronted with an ethical dilemma. (NASP Standard 8.2)	1	2	3	
4 = Exemplary; 3 = Average; 2 = Needs Improvement; 1 = Unacceptable					
a.	Interactions with staff in terms of pleasantness, cooperation, courtesy.	1	2	3	4
b.	Assertive and tactful in stating concerns and asking questions.	1	2	3	4
c.	Initiative and enthusiasm for the field.	1	2	3	4
d.	Rapport and respect with students.	1	2	3	4
e.	Professional dress.	1	2	3	4
f.	Responds appropriately to feedback	1	2	3	4
g.	Organization, reliability, punctuality, responsibility.	1	2	3	4

What would you consider to be the practicum student's major strengths?

In what areas could the practicum student show improvement?

In what area(s) has progress been most marked during practicum?

Other comments relevant to evaluation of this student's practicum experience.

(Practicum student) (Date)

STUDENT EVALUATION OF FIELD-BASED SUPERVISOR

Student: _____ Supervisor: _____

Semester: _____ Date: _____

Please rate the performance according to the following scale: 5=excellent, 4=good, 3=average, 2=needs improvement, 1=unacceptable, NA = not applicable

Professional Behavior

	Professional behavior with you, the student: was receptive to your questions, diplomatic in assisting you, pleasant, cooperative, and courteous.
	Professional behavior with school staff (administrators, teachers): receptive to your questions, diplomatic in working with others, modeled 'best practice.'
	Good working relationship with administrative assistants.
	Was on time; notified you of change in plans, adaptable to your schedule.
	Interested in the field, eager to work with students, motivated to attend workshops and other professional development opportunities.
	Professional image: clean, neat, appropriate dress.
	Good work ethic.
	Respects children and your rights and confidentiality.

Communication

	Demonstrated sensitivity to cultural and linguistic diversity.
	Made appropriate comments during meetings and acted in a professional manner in all meetings.
	Information was presented with tact and diplomacy.
	Organized and well prepared.

Skills

	Demonstrated good to excellent knowledge of the field and modeled best practices.
	Conducted behavioral observations on a regular basis.
	Demonstrated problem-solving skills focusing on assessment and intervention of learning and behavior problems.
	Assessment tools were appropriate and administered properly.
	Demonstrated individual and group counseling skills.

--	--

Please add any additional comments on the back.

INTERNSHIP

Commensurate with the National Association of School Psychologists requirement, students complete an internship of a minimum of 1200 hours. This requirement can be completed on a full-time basis for 1 year or on a half-time basis for 2 years. School-based internships are typically 10 months in duration. The internship is a collaboration between the School Psychology Program and the field site that assures the completion of activities consistent with the goals of the Program. A written plan specifies the responsibilities of the Program and the internship site in providing supervision, support, and evaluation of intern performance (see Internship Agreement, page 27). In addition, interns receive a minimum of two hours of field-based supervision each week from a credentialed school psychologist with a minimum of three years of experience. The internship site provides appropriate support for the internship experience including:

- a) a written agreement specifying the period of appointment and any terms of compensation;
 - b) a schedule of appointments, expense reimbursement, a safe and secure work environment, adequate office space, and support services consistent with that afforded agency school psychologists;
 - c) provision for participation in continuing professional development activities;
 - d) release time for internship supervision; and
 - e) a commitment to the internship as a diversified training experience.
- (NASP, Training Standards, 2010)

It is recognized that internship is a collaborative venture between the university and district. Site placements should provide a diversity of experiences while maintaining stability for interns to become part of a site team and enable them to complete training requirements. Site placements should be coordinated between the district and university.

Procedure for Applying for an Internship

Before beginning internship, the student must:

- a) Be advanced to candidacy
 - a. 3.0 GPA
 - b. "B" or above in Psychology 244A
- b) Have taken the PRAXIS II Exam; student must retake if not passed at NCSP criteria
 - a. Submit scores to the School Psychology Program Coordinator
- c) Have completed all required coursework with grade of "C" or better
- d) Have applied for the Commission on Teaching Credentialing Internship Credential in School Psychology for internships in California if you have a paid internship.

Internship positions are competitive. Individual interviews and internship offers are arranged by districts and often advertised on EDJOIN. Students and districts are encouraged to consult with School Psychology Program Faculty members to facilitate appropriate internship placements.

Internship Evaluation

Student performance of Internship is evaluated twice during the internship year using multiple products.

1. All students must maintain a log of their internship activities. The Internship Log form is on page 29 of this document. Each intern is also responsible for turning in the Monthly Summary of Internship Log (see page 31).
2. Student progress is reviewed on the Advisee Record by the faculty members each semester.
3. Students are evaluated by the field-based credentialed school psychologist each semester using the Field Supervisor/Administrator Form (*all* field supervisors must submit forms for each student and one must be submitted from a site administrator) (see pages 32-34), the School Psychology Intern Evaluation Parent Form (one must be submitted (page 35), and the School Psychology Intern Evaluation Teacher Form (two must be submitted (page 34). The student is responsible for ensuring that these evaluation forms are returned to the University Internship Class Instructor and Coordinator of the School Psychology Program, prior to finals week of each semester.
4. Interns are enrolled in Internship class (Psych 267) each semester. The class meets weekly; 2/3 of the classes are in person and 1/3 online.
5. Interns complete the activities to document attainment of NASP standards for internship class.
6. Interns are evaluated by faculty each semester (see page 36).

At the end of each semester, the Program faculty review the evaluations and meet with each student to discuss the internship logs, and the School Psychology Intern Evaluation Forms. The Advisee Record form is completed with the faculty and student at that time. Specific areas of strength and areas for improvement are discussed with the student.

Remediation Plans Related to Internship Experience

Should there be areas of weakness or concern in an Internship student's skills, knowledge, social skills, dress, punctuality, and/or other competency areas, the student and the Program Faculty are responsible for developing a Remediation Plan (page 37). The Plan may include more on-campus supervised activity, coursework, or additional internship hours.

INTERNSHIP CLASS REQUIREMENTS

Program Policies:

Multicultural Services: Students are expected to provide the best possible services to children of all races, ethnic origins, and creeds. Diversity of all types is to be respected, including, but not limited to, political, philosophical, social and/or ethnic.

Intern's Responsibilities: The student shall perform the duties specified in the internship agreement and those duties must conform to ethical standards. The intern will maintain a log of all duties performed including Fresno State and Field Supervision hours. The student will provide telephone numbers and addresses, as well as directions to the site. It is up to the student to arrange site visitations; this task should be accomplished within the first two months of the course.

Internship/Field Based Placements should be selected to provide a full range of professional experiences. In order to meet current NASP standards for California State University, Fresno and to obtain the School Psychology Credential, students must complete a minimum of 1200 hours of field based experience. Placement is normally for two semesters - 4 days per week in the schools and supervision on Fridays - 40 hours per week.

School sites primarily concerned with assessment are not acceptable as field based site placements. For school psychology students, responsibilities should include the following:

- prevention activities
- intervention design, implementation, evaluation
- assessment
- consultation
- knowledge of community resources
- behavioral observations in natural settings
- individual and group counseling
- evaluation of services
- in-service training conducted and received by the student

The field experience (practicum and/or internship) must be completed in at least two of three settings (preschool, elementary school, middle school, and/or high school). At least one hundred (100) clock hours in internship/fieldwork shall be with at least ten pupils (individually and/or in a group) of a racial/ethnic background different from that of the credential student (Section 44225 (b) (4) and 44225 (q), CA Education Code). It is the student's responsibility to indicate on the work log those cases that comply with this requirement.

Field Based Supervisor's Responsibilities: The Field based Supervisor(s) will meet with the student on a regularly schedule basis for two hours per week with full-time interns. These meetings should be documented in the student's work log. At least one hour should be one-on-one, face to face. The Field Based supervisor must sign off on the intern's log sheets to verify accuracy.

The Field Supervisor(s) will complete an evaluation form at the end of the semester and send it to the Fresno State Professor/Supervisor. The Field Based Supervisor(s) and Fresno State Professor/

Supervisor will contact one another as needed to review the student's progress. The Field Based Supervisor should notify the Fresno State Professor of any problems concerning the intern.

Fresno State Professor/Supervisor Responsibilities: The Fresno State Professor/Supervisor will meet with the interns for continued professional development. Activities will include student, professor, and guest presentations, discussion of assigned readings, and case studies. Individual appointments will be utilized to discuss specific case loads, problems, and progress. The Fresno State Professor/Supervisor will maintain regular contact with field supervisors. If feasible the professor will also visit the placement sites at least once during the course of the semester. The Fresno State Professor/ Supervisor will evaluate the intern's verbal and written reports, interventions, consultations, and counseling activities, and the evaluations at termination of the internship/fieldwork placement. The Fresno State Professor/ Supervisor will give the student evaluative feedback as deemed necessary, by written and verbal communication. An internship/fieldwork experience may be terminated by the Fresno State Professor/ Supervisor in consultation with the Field Based Supervisor(s) at any time for probably cause. Reasons for termination include, but are not limited to: problems in interpersonal relationships in the field, unethical conduct, lack of preparation for the experience, and inadequate knowledge and skill level. The student will be given an opportunity to present his/her case to the Fresno State and Field Based Supervisors.

Work Logs:

These are to be handed in monthly on the 3rd of each month. Use the EXCEL sheet for the cover sheet; please do not calculate by hand. The logs have been designed to allow you to document your work by area; that is, consultation, assessment, etc. This will permit both you and I to maintain a running account of how much time you are spending in each area and to work with your field supervisor to revise your schedule as needed. The goal is to ensure a well-rounded and comprehensive internship experience. Summary sheets must be turned in electronically; logs in one electronic file please! The copy of the summary sheet signed by your supervisor must be turned in by the 5th of the month.

Workshop Report:

Interns are required to attend a one day (or 2 half days) workshop or in-service each semester. Please hand in a one page summary of the professional development activity attended and relevant handouts the next class after the workshop. Be prepared to share the information with the class.

Performance Evaluations:

You will need to obtain evaluations of your internship work from your supervisor, an administrator, 2 teachers and a parent. You are to obtain recommendations from different administrators, teachers, and parents EACH semester. You need to have evaluations from ALL field supervisors EACH semester. These are due prior to finals week so that we might review them with you during finals week. A university supervisor will visit your internship site at least once during the semester and will maintain contact with your local supervisor. We are always available (during office hours or by appointment) for advice, problem-solving, reality-testing, and encouragement.

Site Visit: This is a time for you to show your school site; plan to give me a tour and introduce me to the people you work with (e.g., principal, RSP teacher, counselor). Dress appropriately, even if the visit is on a Friday. Schedule a time (15-30 minutes) for the university supervisor to have a private meeting with your field supervisor(s). Make sure I have accurate directions, parking instructions, etc.!!

Psych 267 – Internship - Fall

COURSE REQUIREMENTS:

1. 2 assessment reports

- a. All assessments must contain classroom observations with data. Observations must have data and a statement relating observation to the referral concern.
- b. All assessments must contain evidence of parental input.
- c. Over the course of 2 semesters you should submit assessments that include the following: (Indicate which criteria each report meets; reports can meet more than one criteria)
 - One report should be RTI/MTSS compliant, incorporating CBM/DIBELS or behavioral intervention data
 - One assessment must reflect culturally or linguistic diversity (Indicate the report you are submitting to meet this requirement and HOW culture, language, or diversity impacted the assessment. Must be more than “Larry P so gave adaptive measure . .
 - One should be of a student assessed for ID or ED
 - One must be an initial special education evaluation
 - Interns are encouraged to expand their assessment experiences as opportunities are available to include students with autism, OHI, and TBI.
- d. Utilize district templates for assessment reports. Reports should meet your district guidelines, but must include background information on student and referral questions, results of intervention, counseling, or assessment, and recommendations. Recommendations must go beyond special education placement; these should be appropriate recommendations to assist the student regardless of eligibility
 - **Please remove all individual identifying information. Use only first names or initials or XXX.** All information regarding cases will be strictly confidential among class members.
 - Include a **one to two page reflection paper** with each **assessment** and the **IEP** meeting, discussing concerns, questions, what went well, and what you could have done differently. **Reports without a reflection will not be accepted.**
 - Do not turn in a second report until you have received feedback on the first one. Late reports will not be accepted without prior notification.

2. A mental health project. Choose one of the following:

- a. A counseling case study report (Individual or Group). Counseling reports will include background information, goals, plan, and progress to date. Pre and post or progress DATA are to be included.
- b. Involvement in a prevention or intervention program, such as bully-prevention, a threat assessment with follow-up, an in-service, or assisting in developing and initiating PBIS. Describe the project and your role / training. Program evaluation data are encouraged.

3. **Response to Intervention Project.** 1 individual or small group intervention project: academic or behavioral.

- a. *Make this a realistic intervention* – that is, one you might actually do as a school psychologist. You should not be doing all or even most of the implementation. You are the

consultant.

- b. Include background information, referral questions, hypothesis, assessment/ baseline data (GRAPHED), and intervention plan. It is expected that a minimum of 1 month / 6 weeks preferred of intervention data will be collected. If a formal behavior plan is developed for a special education or 504 student, include a copy.
- c. Evidence of home school collaboration in planning is required; parental involvement in implementation is desired. You should plan to begin interventions for 2 children each semester as children move, are expelled, are absent, and may not be available for the entire intervention.
- d. Interventions will be evaluated using the NCSP case study form.

Psych 276 (Internship) – Spring

COURSE REQUIREMENTS:

Reports:

1. **2 assessment reports** - IEP must be this semester. See requirements for Fall.
2. **Family project.** Please complete one of the following:
 - a) Parent training multi-session – sole or co-presenter. Possible topics: Behavior management, support homework, mental health resources
 - b) Parent training in-service (e.g. literacy skills for preschoolers, helping your child with homework for ESL parents, home interventions for students with ADHD).
 - c) Individual intervention utilizing conjoint consultation. Submit a copy of materials for the workshop and social validity data.
3. **Program Evaluation.** Choose a program in your district that is currently being implemented or one that you would like to implement. This could be a class-wide intervention, group counseling, PBIS, RTI.
 - a) Compare pre – post data or progress monitoring.
 - b) Or you could access and work with district data for evaluation system-wide intervention (e.g., RTI, PBIS) data or do some analysis of DIBELS data.
 - c) Submit a summary that includes the following information.

SCHOOL PSYCHOLOGY PROGRAM - DEPARTMENT OF PSYCHOLOGY
CALIFORNIA STATE UNIVERSITY, FRESNO

INTERNSHIP AGREEMENT

Intern: _____

District: _____

University Supervisor: _____ Year: _____

1. The above named intern has agreed to work a minimum of 32 hours per week on average for a total of 600 hours per semester. A total of 1200 clock hours over the full academic year are required for program completion and PPS credential.
2. The district must provide the intern with a minimum of two hours of supervision each week. It is expected that at least one hour is individual face-to-face supervision.
 - a. Intern supervisors must have a minimum of three years' full-time experience as a credentialed school psychologist.
 - b. Field supervisors are not assigned to supervise more than two interns unless given release time to do so.
3. It is recognized that internship is a collaborative venture between the university and district. Site placements should provide a diversity of experiences while maintaining stability for interns to become part of a site team and enable them to complete training requirements. Site placements should be coordinated between the district and university. All initial placements and changes will be discussed with the university program coordinator and university field supervisor prior to implementation.
4. The Intern, the Field Based Supervisor, and the University Supervisor will meet at least once each semester at the school site if feasible. FaceTime, Skype, or phone may also be utilized.
5. The Intern will meet three hours per week with the CSU, Fresno University Supervisor including class time, online communication, and individual supervision. Additional supervision will be scheduled as needed.
6. The School District and Field Based Supervisor will ensure that the Intern is provided:

- a. A written agreement from the School District specifying the terms of compensation;
- b. A written agreement from the School District specifying the terms of the internship (hours, duties, benefits, and supervision)
- c. Expense reimbursements;
- d. A safe and secure work environment and adequate office space;
- e. Support services consistent with that afforded agency school psychologists;
- f. Provisions for participating in continuing professional development activities;
- g. Release time for internship supervision; and
- h. A commitment to the internship as a diversified training experience).

7. It has been agreed by the undersigned parties that the Intern will gain experience in the following areas:

- a. Psycho-educational assessment, including file review, interviews, and observations
- b. IEP meetings & related paperwork
- c. Report writing

TOTAL TRADITIONAL ASSESSMENT TIME = MAXIMUM 40%

- d. Consultation/Student Study Team meetings
- e. Intervention design, implementation, and evaluation, including observations
- f. Individual or group counseling (Special & General Education Students)
- g. Alternative assessments (CBM, RTI)

TOTAL PROBLEM SOLVING TIME = MINIMUM 25%

- h. Continuing Professional Development (workshops, conventions, research)
- i. Supervision (Field and University)

TOTAL PROFESSIONAL DEVELOPMENT = MINIMUM 15%

If at any time during the year the Internship School District should fail to live up to the terms of the internship placement this agreement may be terminated.

If the Intern does not perform his or her duties satisfactorily, this agreement may be terminated.

SCHOOL PSYCHOLOGY INTERN EVALUATION
CALIFORNIA STATE UNIVERSITY, FRESNO
Field Supervisor Form

Intern: _____ Date: _____

Field Supervisor: _____

Placement: _____

Circle the number corresponding to the observed behaviors according to the following scale:

4. Exemplary

Demonstrates the highest level of knowledge, competence, and understanding that clearly exceeds the independent expectations of an intern and can function with minimal supervision required.

5. Accomplished

Exhibits evidence of knowledge, competence, understanding that exceeds expectations for a beginning pre-service intern, but not yet able to practice without occasional or more on-going supervision.

4. Emerging

Displays competence that meets expectations for a beginning pre-service intern but not yet at an initial professional level and still requires on-going supervision.

3. Not Met

Competence below the level expected of an intern, or minimal or no competence noted

NA = No opportunity

1.	Intern works with teacher as consultee to identify target problem. (NASP Standard 3, 4.1, 4.2)	1 2 3 4 NA
2.	Intern works with parent/family as consultee to identify target problem. (NASP Standard 3, 4.1, 4.2, 6)	1 2 3 4 NA
3.	Intern considers culture when developing interventions. (NASP Standard 7)	1 2 3 4 NA
4.	Intern works with consultee to analyze baseline data, develop intervention plan and helps obtain necessary materials. (NASP Standard 3, 4.1, 4.2)	1 2 3 4 NA
5.	Intern follows up on progress of intervention regularly; modifies as needed. (NASP Standard 4.2)	1 2 3 4 NA
6.	Intern displays skills in using technology to monitor progress and graph results. (NASP Standard, 8.1)	1 2 3 4 NA
7.	Intern utilizes data for intervention evaluation; makes plans for maintenance and generalization. (NASP Standard 2, 4.1, 4.2, 8.1)	1 2 3 4 NA
8.	Intern displays knowledge of biological, cultural, developmental, and social influences on behavior. (NASP Standard 4.2, 7)	1 2 3 4 NA
9.	Intern displays knowledge of behavioral assessment and techniques. (NASP Standard 2, 4.2)	1 2 3 4 NA
10.	Intern implements and evaluates prevention programs. (NASP Standard 5.2, 8.1)	1 2 3 4 NA
11.	Intern is involved with school-wide multi-tier behavior support models. (NASP Standard 5.2)	1 2 3 4 NA
12.	Intern displays knowledge of biological, cultural, developmental, and social influences on development and learning. (NASP 4.1, 7)	1 2 3 4 NA

13	Intern selects appropriate assessment measures. (NASP Standard 2)	1 2 3 4 NA
14	Intern is skilled in individual assessment (e.g., cognitive, academic, memory). (NASP Standard 2)	1 2 3 4 NA
15	Intern displays appropriate use and interpretation of adaptive and behavior rating scales. (NASP Standard 2, 4.1)	1 2 3 4 NA
16	Intern incorporates assessment of the instructional environment. (NASP Standard 2, 4.1, 5.1)	1 2 3 4 NA
17	Intern is skilled in observations of students. (NASP Standard 2)	1 2 3 4 NA
18	Intern displays ability to integrate information and make recommendations. (NASP Standard 2, 4.1)	1 2 3 4 NA
19	Intern uses data to develop academic interventions. (NASP Standard 2, 4.1)	1 2 3 4 NA
20	Intern follows up on progress of intervention and modifies as needed. (NASP Standard 4.1)	1 2 3 4 NA
21	Intern participates in system-wide academic data collection and development, and/or evaluation of academic intervention programs. (NASP Standard 5.1, 8.1)	1 2 3 4 NA
22	Intern is skilled in assessment of social and emotional development. (NASP Standard 2, 4.2)	1 2 3 4 NA
23	Intern selects appropriate counseling techniques. (NASP Standard 5.2)	1 2 3 4 NA
24	Intern establishes clear communication with parents and teachers about counseling process. (NASP Standard 3, 5.2, 6)	1 2 3 4 NA
25	Intern establishes rapport with students. (NASP Standard 3, 5.2)	1 2 3 4 NA

PROFESSIONAL JUDGMENT (Use of knowledge, class and practicum attendance)		
PROFESSIONAL SKILLS (Application of knowledge in evaluation, prevention, intervention, report writing)		
RESPONSIBILITY (Punctual, keeps up with coursework, makes appointments, notification of change in plans)		

General Comments

Coronavirus 19 Notes

The school closures due to the coronavirus pandemic required a rapid transition to virtual instruction and services. At this time it is uncertain how K-12 schools will be functioning in 2020-2021; however it does not seem likely we will be returning to pre-pandemic status. Instruction may remain virtual, a hybrid of online and in-person instruction, and/or staggered schedules on campuses to practice social distancing. This is a big adjustment for everyone.

Participate with your practicum supervisor as much as possible. Talk to them about what you were able to do last year and what you may have missed. Ask your supervisor what they are learning about new ways to practice! Hopefully you can conduct phone or Zoom interviews, and attend and participate in video IEP, 504, and SST meetings. If you are a 2nd year student it is critical you get as much assessment and report writing experience as possible.

Class assignments for consultation and intervention or counseling will be modified as necessary, but we hope you will be able to develop and implement interventions, remotely via consultees as necessary. Practicum hour requirements for each semester may also be adjusted to maximize times when children are in face-to-face classes. **Keep your supervisor apprised of changes and current expectations for assignments and hours.**

We appreciate your creativity and flexibility in as we all figure out to serve schools and students in new ways. As schools resume there will be need for counseling and trauma interventions, and academic and behavioral interventions for children who have been at home for six months and may have missed critical class time. Assessments and IEPs have been delayed and there will be a lot of catching up! We hope you will be an integral part of helping schools resume.
