

6. Fieldwork and Clinical Practice

Exhibit 6.4 Documentation of Clinical Placements

In the CSDS Speech Pathology Program, our students gain experience and meet some clinical standards for the credential in CSDS 230 Advanced Clinical Practicum in Speech-Language Pathology. In CSDS 230, students develop early skills in assessment and treatment of a variety of clients with range of disorders and ages. The majority of skills and standards met for the credential occur in the later clinic, CSDS 257 Student Teaching: Speech-Language Pathology. During this semester-long placement, clinical supervisors and students receive a Learning Outcomes Checklist via email memo (EXHIBIT 6.3), hard copy memo, and within the provided syllabus (EXHIBIT 6.6). This checklist informs both student clinicians and clinical supervisors of the specific experiences and skills that are required by the end of the semester. If the learning Outcomes Checklist is met and student performance is within the accepted range, the student's Performance Evaluation reflects this and the student receives a grade of credit (CR).
