Collaborative Works/Projects (with public schools, community agencies, etc.)

I worked with general education students and staff and Robinson Elementary. I worked with a group called peer mediators to help me with my project at Fresno State. As the peer mediators mentor, I supported and taught the general education students on how to interact and assist students with autism outside on the playground as well as in the classroom.

Collegial Works/Projects (i.e., grants, articles, conference presentations, etc.)

I took part in a conference called Cal-TASH. My colleague and I presented our projects from Fresno State to a group of people at this conference. We made PowerPoint presentations and also attended some presentations ourselves during the conference in Sacramento.

Professional Development

ACUE course through Fresno State (September 2020-to learn strategies and skills to apply in my courses being taught at Fresno State).

Honors (Optional)

Dean's List for multiple semesters during my time at CSU Fresno.
