INTERESTS FOR RESEARCH AND APPLICATION

- ❖ Psychosocial aspects of sport, exercise, and athletes' recovery from sport injury including the examination of social support structures, coping skills, motivation, and resilience; theoretical perspectives include self-efficacy theory, attribution theory, and achievement goal orientation theory
- ❖ Applied sport and exercise psychology for performance enhancement and cross-discipline collaborative research
- ❖ Design and implementation of support groups for athletes with sport injury
- ❖ Youth, adolescents and adults' moral, social, and psycho-emotional development through sports and physical activity
- ❖ Teacher preparation, instructional design and evaluation, and assessment of K–12 physical education, exercise, and youth sport programs
