

# BECOME A TEACHER

Have you always felt a desire to educate and inspire others? If so, entering a teaching credential program is the path for you!

## Multiple Subject Teaching Credential

The multiple subject credential program is for students who want to become kindergarten or elementary school teachers, K-8. Our nationally accredited and award-winning program prepares candidates to teach elementary school in culturally and linguistically diverse communities.

## Education Specialist Teaching Credential

The education specialist (special education) credential program prepares graduates to teach students with mild/moderate or moderate/severe disabilities, K-age 22.

### Graduates Teach In

- public or private school programs
- clinics
- educational programs
- residential facilities
- hospitals

### Earn a Dual Credential

Multiple Subject and Education Specialist credential combined!

**FRESNO STATE**

**Kremen School of Education  
and Human Development**

“ Fresno State  
prepares  
**more K-12  
school teachers**  
than any other  
public university  
in California.

## Single Subject Credential

Teach specific subjects in departmentalized classrooms at a middle school or high school. Fresno State offers single subject teaching credentials in agriculture, English, mathematics, physical education, Spanish, and many more subjects.

## Bilingual Authorization Program

A bilingual authorization trains future teachers to support emergent bilingual students. It provides students with skills to communicate effectively to Spanish or Hmong speaking parents and understand cultural issues. This authorization can be added to the multiple subject or education specialist credentials.
