<b>COMPONENTS</b>		Where standard is addressed																																							
<b>Program Standard 2: Collaboration in Implementing the Program</b>																																									
Sponsors of the school nurse preparation program establish collaborative arrangements with other institutions and entities that contribute substantively to the quality and effectiveness of the design and implementation of candidate preparation.																																									
These arrangements address significant aspects of professional preparation, and include collaboration between school nurse preparation program providers and local education agencies.																																									
Participants cooperatively establish and review the terms of the agreements, including well-defined roles, responsibilities and relationships.																																									
The program meets other factors related to this standard of quality that may be brought to the attention of the review team by the institution.
